Advanced Communications for Agriculture and the Life Sciences

AGEDS 327x

Tues & Thurs 1:10 to 3:00 pm

Communicate about agriculture & the outdoors

3 cr. Advanced communications relevant to agriculture and life sciences featuring written, oral, visual, and electronic media. Students develop skills and ethical and democratic perspectives that enable them to express scientific, professional, personal, and technical elements relevant to agriculture and natural resource management. Emphasis on adapting communications to urban as well as farm, industry, and rural audiences. Field trips. All majors welcome. 3 credits.

Instructor: Dr. Nancy Grudens-Schuck
